RS	right side

Gauge

20 stitches and 22 rounds to 4 in (10 cm) in single crochet, in a spiral.

20 sc and 22 rounds = 4 in (10 cm), worked in a spiral. To check it, work a flat circle: 6 sc in a magic ring, then 6 more sc in each round (12, 18, 24, 30, 36). After round 6 it should measure about 2¼ in (5.5 cm) across. The stitches should be tight enough that the stuffing does not show.

Before you start

- Every piece is worked in a continuous spiral with the right side facing you: do not join and do not turn. Put the marker in the first stitch of each round and move it up.
- Square brackets hold a repeat; work it as many times as the line says. The number in parentheses is the count at the end of the round.
- Magic ring: wrap the yarn round two fingers, work round 1 into the loop and pull the tail to close it. Or chain 2 and work round 1 into the first chain.
- Color change: where a line begins "With E," (or another letter), work the last pull-through of the round before it in E. Cut the old yarn and knot the ends on the wrong side.
- Center line: places on a piece are given by round and by stitches from a center line. It is half way round from where the rounds begin. Mark it with a pin or a scrap of yarn as listed here, run it straight from round 1 to the last round by eye, and count out from it along the round, in stitches and half stitches.
- Head: the center line runs between stitches 18 and 19 of round 6 (36 sts). It faces the front, round 1 at the top.
- Right and left are as you look at the front of the toy. Rounds are counted from the start of each piece.
- To work sc2tog, put the hook under the front loop only of each of the next 2 stitches, yarn over, pull through both loops, yarn over, pull through 2 loops.
- For a child under three, or a pet, embroider the eyes instead: satin stitch dots of the same size in C (brown).
- The rounds and stitches are the same for every size; the yarn and the hook make the difference. Lengths in the words (tails, ovals, details) are for Standard: for another size multiply them by the number in its line.
- Small: fine (2, sport) yarn, 2.25 mm (B-1) hook, 27 sc and 30 rounds to 4 in (10 cm): about 5¼ in (13.5 cm) tall; eyes 6 mm; multiply lengths by 0.74; about 0.74 times the yarn.
- Large: bulky (5, chunky) yarn, 5 mm (H-8) hook, 14 sc and 15.4 rounds to 4 in (10 cm): about 10¼ in (26 cm) tall; eyes 11 mm; multiply lengths by 1.4; about 1.4 times the yarn.
- Jumbo: super bulky (6, plush or velvet) yarn, 6.5 mm (K-10½) hook, 11 sc and 12.1 rounds to 4 in (10 cm): about 13¼ in (33.5 cm) tall; eyes 15 mm; multiply lengths by 1.8; about 1.8 times the yarn.

Instructions

Square brackets [ ] hold a repeat: work what is inside as many times as it says. The count in round brackets at the end of a line is what that line leaves. Tick the box when a round is done. In UK terms sc is double crochet.

Assembly

Head: 1 ears, 2 eyes, 3 cheeks, 4 nose

Each line is a round, counted as the rounds are worked. The upright broken line is the center line. A place with a broken edge is on the far side.

1. Bend the ring into a circle and add a little stuffing at the open end. Set the open end against the closed end and sew each of its 8 stitches to one of the 8 stitches of round 1, all the way round.

2. Set the head on the outer edge of the ring, opposite the join, its closed hole down on the ring and its center line looking the way one flat side of the ring looks. Sew the two together in a circle about ½ in (13 mm) across, going round twice.

3. Pin the two ears to the head: the middle of each flat edge lies on round 4, one to each side, 3 stitches from the center line (6 stitches apart). The flat edge runs from side to side: its inner end is on about round 3, 1 stitch from the center line; its outer end is on about round 6, 6 stitches from it. They point up. Sew through both layers of the 4-stitch edge with the tail.

Finishing

- Put in the plastic eyes when the words of a piece say so, or embroider eyes in the same places with the other details. Embroider with one strand of yarn and the yarn needle when the pieces round the place are sewn on; begin and end each strand inside the toy. Satin stitch is straight stitches side by side until the shape is filled. Backstitch is a line of short stitches end to end: bring the needle up one stitch ahead, put it down at the end of the stitch before, and repeat.
- Eyes: two 8 mm black plastic eyes, on the head between rounds 9 and 10, one to each side, 4½ stitches from the center line (9 stitches apart).
- Cheeks: with D (rose), in satin stitch, an oval about ¼ in (6 mm) wide and 3/16 in (5 mm) tall, its middle on the head on round 11, one to each side, 6 stitches from the center line (12 stitches apart).
- Nose: with D (rose), in satin stitch, a triangle with its point down about 3/16 in (5 mm) wide and 1/8 in (3 mm) tall, its middle on the head between rounds 10 and 11, on the center line.
- Mouth: with C (brown), in backstitch, an upside-down Y, its stem about half its height, ¼ in (6 mm) wide and 3/16 in (5 mm) tall, starting at the bottom of the nose.
- Weave every tail through the toy and trim it. For a toy that will be played with, go round each seam a second time with a new length of yarn. Check the seams and small parts from time to time.

In all: 4 pieces; 1,062 stitches (384 in the ring, 432 in the head, 123 in each ear); 8 ends to weave in.
