sc	single crochet (UK dc, double crochet)
hdc	half double crochet (UK htr, half treble)

hdc2tog	half double crochet 2 together: [yo, insert hook in next st, yo, pull up a loop] 2 times, yo, pull through all 5 loops (UK htr2tog, half treble 2 together)
Rnd	round
RS	right side

yo	yarn over (UK yrh, yarn round hook)

Gauge

14 stitches and 12 rows to 4 in (10 cm) in half double crochet.

Check it on the scarf itself, laid flat and not stretched, when row 43 is done: the 20 stitches of a row of the back are about 5¾ in (15 cm) wide, and rows 32 to 43, which are 12 rows, are about 4 in (10 cm) tall. If they measure more, start again with a smaller hook; if they measure less, with a larger one.

Before you start

- The ch 1 at the start of a row or a round does not count as a stitch.
- The right side of a piece in rounds is the side that faces you as you work; the right side of a piece in rows is the side that faces you in row 1.
- To sew a piece on: lay it where the step says, right side up. With the yarn on a yarn needle, come up from below through both loops of a stitch of its edge and go down into the piece underneath, just outside that stitch. Work one sewing stitch for each stitch of the edge that is named. A chain of a foundation edge counts as a stitch, and so does the end of a row. Fasten off where it does not show.
- The scarf is worked from the tail to the nose.
- Leave a tail of about 6 in (15 cm) when you begin and when you fasten off, unless another length is given. The ends that are not sewn with are woven in.
- When a ball runs out, join the next at the end of a row: work the last yarn over of the last stitch with the new yarn, and leave a tail of about 6 in (15 cm) on both.
- Magic ring: wind the yarn once round two fingers, put the hook through the ring and pull up a loop of the working yarn. Round 1 begins with this loop on the hook. Work round 1 into the ring, over both strands, then pull the tail to close it.
- In joined rounds, the first stitch of a round goes into the same stitch as the joining sl st. The joining sl st itself is not a stitch and is not worked into.
- The coat has stripes of 4 rows of D and 2 rows of F. To change yarn, work the last yarn over of the last stitch of the row before with the new yarn. Cut A before the coat, and leave a tail of about 6 in (15 cm) on it and on every yarn that begins. Within the coat do not cut D and F: leave the yarn that is not in use hanging at the edge and bring it loosely up the side when its turn comes. Cut F after its last stripe and D after the coat, and join A anew.

- To change yarn at the collar, work the last yarn over of the last stitch of the row before with the new yarn. Leave A hanging at the edge and take it up again after the 2 rows of the collar. Cut D after the collar, and leave a tail of about 6 in (15 cm) at both ends of it.
- The nose is an oval: it begins with a chain that is worked on both of its sides. When the last chain is worked, do not turn: go on round the end and work back along the other side of the chain, the first stitch into the same chain as the last one, and the last stitch into the chain where the round began. Where the words in square brackets are worked 2 times, each time is one half of the oval.
- The eyes, the nose and the tag are yarn, and nothing hard is sewn on. The extra long size is for grown people and tall children.

Instructions

Chosen: Regular. Square brackets [ ] hold a repeat: work what is inside as many times as it says. The count in round brackets at the end of a line is what that line leaves. Tick the box when a row is done. In UK terms sl st is slip stitch, sc is double crochet, hdc is half treble, sc2tog is double crochet 2 together and hdc2tog is half treble 2 together.

Assembly

1. Weave in all the ends but the tails of the pieces that are sewn on. Lay the scarf right side up with the nose toward you. Rows are counted from the tip of the tail. Left and right are as you look at it.

2. Nose: lay it right side up across the end of the head, its long way level and the end where its rounds are joined at the left. The middle one of its 3 chains lies on the middle of the head, between the 2nd and the 3rd of the 4 stitches of the last row, and its lower long edge, the one toward you, stands about 1/8 in (3 mm) past the last row: the nose hides the end of the head. The 18 stitches of its edge are two halves of 9: each half goes from the left end of the nose along one long side to the right end. The upper half, toward the collar, lies on the head: with its tail, which hangs at the left end, sew these 9 stitches down to the head, from the left to the right, the first and the last of them into the end of row 180. The lower half, 9 stitches, reaches past the edge of the head and is not sewn down from the front. Turn the work over and go on with the same tail: sew the edge of the head to the back of the nose, taking up only the back of the nose, 2 stitches in the ends of rows 181 and 182 at one side, 4 along the last row and 2 in the ends of rows 182 and 181 at the other side, 8 stitches.

3. Eyes: the middle of each eye is on row 170, the one 3 stitches to the left and the other 3 stitches to the right of the middle of the row. With its tail sew each one down all round: 8 stitches. On each eye work one level straight stitch of F, as long as a stitch is wide, near its edge toward the collar, and go over it once more: cut a length of F about 12 in (30 cm) for

each.

4. Ears: the foundation edge of an ear is its top and the last row its lower end. Lay an ear right side up on the head, its last row toward the nose and its whole foundation edge on the head. The foundation edge slants: its outer end is 1 stitch in from the side edge of the head, on the line between rows 161 and 162, and its inner end, toward the middle of the head, is one row nearer the nose, on the line between rows 162 and 163. The ear then hangs toward the nose and a little outward, past the cheek, and leaves the eye free. Cut a length of B about 24 in (61 cm) long and sew the top down: 1 stitch in the end of row 1 at one side of the ear, 4 along the 4 chains and 1 in the end of row 1 at the other side, 6 stitches. Then work the same 6 stitches once more, back to where you began. From row 2 on the ear is wider than its top: it is not sewn there and hangs free. Sew on the other ear at the other side as its mirror.

5. Legs: the last row of a leg is its paw. On the right side of each paw work two lines of 3 straight stitches, one over each of the last 3 rows, between the 2nd and 3rd stitch and between the 4th and 5th stitch of the last row: cut a length of C about 20 in (51 cm) for each leg. Turn the scarf wrong side up. Lay the legs, right side down, on its wrong side so that their foundation edges are 3 stitches in from the side edge and the paws stand straight out. The front legs lie over the ends of rows 145 to 151, one at each side, and the hind legs over the ends of rows 33 to 39. For each leg cut a length of A about 30 in (76 cm) long. Sew the foundation edge to the back of the scarf: 8 stitches, and the two side edges of the leg as far as the edge of the scarf: 3 stitches each. Then turn the scarf right side up and sew its side edge to the leg underneath: 7 stitches, one in the end of each of the 7 rows. That is 21 stitches for a leg. Turn the scarf over again for the next leg.

6. Tag: lay it right side up on the middle of the collar, between stitches 8 and 9, over rows 155 and 156 and the row after them, its edge level with the edge of the collar toward the tail. With its tail sew it down all round: 12 stitches.
