## Gauge

**14 stitches and 10 rounds to 4 in (10 cm)** in post rib.

Check it on the neck warmer itself, laid flat and not stretched, when 5 rounds are done: 14 stitches are about 4 in (10 cm) wide, and 5 rounds about 2 in (5 cm) deep. If they measure more, start again with a smaller hook; if they measure less, with a larger one.

## Instructions

Standard. US terms.

**ch** chain, **dc** double crochet (UK tr), **sl st** slip stitch, **FPdc** dc round the stitch below, hook in and out at the front, **BPdc** dc round the stitch below, hook in and out at the back, **st** stitch.

Do not turn: the outside faces you all the time. The ch 2 is not a stitch. The first FPdc goes **where the slip stitch went**. **Working in the round**

[ ] 40 times: 40 times in all. (40 FPdc, 40 BPdc): the round now has that many; a check, not a step.

Also: yo yarn over.

## Finishing

- Weave in the ends with the yarn needle, changing direction once or twice.

In all: 24 rounds; 1,920 stitches; 2 ends to weave in.

To find how many balls: divide by the length on your yarn's label and round up. Buy them from one dye lot. The estimate is from the stitches of this size at this gauge, with 15 percent added.

### Notes

- The ch 2 at the start of a round does not count as a stitch.
- Leave a tail of about 6 in (15 cm) when you begin and when you fasten off, unless another length is given. The ends that are not sewn with are woven in.
- When a ball runs out, make the joining sl st of a round with the next one, and leave a tail of about 6 in (15 cm) on both.
- In joined rounds, the first stitch of a round goes into the same stitch as the joining sl st (in round 1, the same chain). Here that is the first FPdc of every round from round 3 on: it goes around the FPdc the round was joined in, so that front post always stands on front post and back post on back post. In round 2 it goes around the first dc. The joining sl st itself is not a stitch and is not worked into.
- Buy whole balls from one dye lot.
- One yarn is used throughout: a variegated, self-striping or cake yarn of the same weight and length can take its place, and its colors fall where the yarn has them.
