Special stitches

picot: Ch 3, sl st in 3rd ch from hook. It leaves It leaves a small loop standing on the stitch before it. for the next row.

Gauge

12 stitches and 6½ rows to 4 in (10 cm) in double crochet.

Check your gauge on the piece. Begin the pattern and measure the piece itself as you go. After row 6 the top edge, laid flat and measured straight across from tip to tip, is about 10.4 in (26.4 cm). If yours is smaller, use a larger hook; if it is larger, use a smaller one.

The shoulder shawl has 22 rows before the picots, the full shawl 30 and the large shawl 38; each is printed in full when it is chosen. For a size between or beyond them, work four rows more or fewer (26 or 34 rows before the picots, for example), so that the last row before the picots comes two rows after a row of eyelets: four rows add about 7 in (17.8 cm) to the top edge. The colors of such a size: keep yarns A, B and C for the same rows as in the size you began with, work every row after them up to the last row before the picots in yarn D (in a shawl of 26 rows: A for rows 1 to 6, B for rows 7 to 12, C for rows 13 to 18 and D for rows 19 to 26), and work the picots in yarn A. Every four rows added take more of yarn D than the four rows before them, and about 4 yd (3.7 m) more of yarn A, for the longer row of picots. In a row number n, a plain row has dc in the next 4 x n - 6 sts of each half, a row of eyelets works its brackets 2 x n - 3 times, and the row after it works its brackets 2 x n - 5 times. In the picot row the brackets are worked one time fewer than the number of the row before it.

Before you start

- The ch 3 at the start of a row counts as a dc; the last stitch of the next row is worked into the top of it. The chain stands on the first stitch of the row: "same st" right after it is that stitch, and "next st" is the one after it.
- A ch 1 at the start of a row does not count as a stitch.
- A stitch worked into a chain space goes into the open space under the chain, not into a chain stitch.
- Stitches in round brackets with a place after them, or several of one stitch with one place after them, are all worked into that one place. The brackets at the end of a row hold its count.
- What is in square brackets is worked as many times as the number after them says, in all.
- Row 1 is a right side row. Turn once between rows: the word "turn" near the start of each row is that turn.
- To change color, work the last stitch of the old color until two loops are left on the hook and draw the new color through them. Cut the old color, leaving a tail of about 6 in (15.2 cm), and fasten in a fresh piece each time: the yarn amounts and the ends to weave in are counted this way.
- About 39.1 in (99.3 cm) across the top edge and 19.6 in (49.8 cm) deep.

- 22 rows of double crochet and one row of picots. Every fourth row (4, 8, 12 and so on to 20) is a row of eyelets.
- Yarn A is used for rows 1 to 6, B for rows 7 to 12, C for rows 13 to 18, D for rows 19 to 22 and A again for the picots in row 23.

Instructions

Chosen: Shoulder shawl. Square brackets [ ] hold a repeat: work what is inside as many times as it says. Round brackets ( ) inside a line hold stitches that all go into one place. The count in round brackets at the end of a line is what that line leaves. Tick the box when a row is done. In UK terms sl st is slip stitch, sc is double crochet and dc is treble.

Yarns in order of use: A, lilac; B, lavender; C, violet; D, plum.
