Gauge
16 stitches and 9 rows to 4 in (10 cm)
In double crochet (UK treble).

What you need

Yarn: any one color (pale blue in the picture), light (3) **about 1,170 yd (1,070 m), an estimate**
By weight: about 470 g, an estimate, where 100 g is 250 yd (229 m).

Hook: 4.5 mm (US 7), or the size that gives you the gauge. Also: a yarn needle, scissors and a tape measure.

To find how many balls: divide by the length on your yarn's label and round up. Buy them from one dye lot. The estimate is from the stitches of this size at this gauge, with 30 percent added.

Gauge

16 stitches and 9 rows to 4 in (10 cm) in double crochet. Along a row, count every stitch and every chain between stitches as one.

16 stitches, or 8 meshes, and 9 rows to 4 in (10 cm), in double crochet and filet meshes. A ch 1 between two dc counts as a stitch. Check it on the afghan itself when 9 rows are done, laid flat and smoothed out with the palm: the 157 stitches of a row are about 39¼ in (100 cm) wide, and the 9 rows are about 4 in (10 cm) tall. If they measure more, start again with a smaller hook; if they measure less, with a larger one.

Notes

- The afghan is worked in one piece from the lower edge up, and the border around it afterward. Row 1 is a right side row, and so is every odd row. The last row is a wrong side row: after it, fasten off and turn the piece, so that the right side faces you for the border. The border begins in the st at the right-hand end of the top edge; that is the last st you worked in row 88.

- A mesh is two stitches wide. An open mesh is ch 1 and a dc: the ch 1 passes over one st or one ch-1 sp of the row below, and the dc goes into the st after it. A solid mesh is two dc: the first goes into the next st, or, over an open mesh, into its ch-1 sp, around the chain; the second goes into the st after it. One dc, the first st of the row, stands before the first mesh. The words say where every stitch goes.
- The first st of every row after row 1 is the ch 3. It stands over the first st of the row below, and nothing more is worked into that st: the next dc goes into the second st. The last dc of a row goes into the top of the turning ch, which is the third of the 3 chs that began the row below; in row 2 it is the highest of the 3 chs that were skipped when row 1 began.
- The chart has one square to a mesh. A row that faces you with its right side is read from right to left, and a wrong side row from left to right; the words give every row in the order you work it.
- What stands in brackets is worked as many times as the words after it say, counting the first time.
- Leave a tail of about 6 in (15 cm) when you begin, when you join a yarn and when you fasten off, unless another length is given. The ends that are not sewn with are woven in.
- When a ball runs out, work the last yarn over of a stitch with the new yarn, and leave a tail of about 6 in (15 cm) on both. In the rows do it in the last stitch of a row; in the rounds of the border any stitch will do.
- To join a yarn with a sl st, make a slip knot of it on the hook, put the hook in the place named, yo, and pull through the place and the loop on the hook.
- The border is worked in the round with the right side facing; do not turn between rounds. It goes along the last row, down the ends of the rows on the left, along the foundation chain and up the ends of the rows on the right. The last of the sts of the last row is the top of its ch 3. The end of a row is the post of its first or last dc, or its ch 3: work the sc around it. The ch 1 at the start of a round does not count as a stitch. Every round is joined with a sl st in its first sc, and the first sc of the next round goes into the same st.
- In round 2 the 3 sc of each corner go into the middle one of the 3 sc of round 1.
- Round 3 is the round of shells: all the dc named with one place are worked into that one st, 5 dc for a shell along an edge and 7 dc at each corner, into the middle one of its 3 sc.
- Buy whole balls from one dye lot.

The 157 chs of the foundation are the chains under row 1, one for each of its sts; under the turning chain of row 1 it is the lowest of the three chains that were skipped. The first you come to lies under the last st of row 1, and the last you come to is that lowest chain, under its first st.

Hold the piece with the right side facing you and the last row at the top; the first st is the one at the right-hand corner.

☐ **Foundation**	Work around the edge of the piece, right side facing: the 157 sts of the last row, the ends of the 88 rows, the 157 chs of the foundation, the ends of the 88 rows.

Finishing

- Weave in the ends with the yarn needle through the solid meshes or the border, changing direction once or twice.
- Lay the afghan on a towel, damp it, smooth it out flat with straight edges and square corners so that the meshes open, and let it dry.

In all: 11,907 stitches (9,979 in the afghan, 1,928 in the border); 4 ends to weave in.
