Gauge

15 stitches and 17 rounds to 4 in (10 cm) in single crochet.

If the piece measures more than that, begin again with a smaller hook; if it measures less, with a larger hook.

Check your gauge on the piece. Begin the pattern and measure the piece itself as you go. The gauge is checked on the piece itself: after round 2 the tube should measure about 10½ in (26.5 cm) around, laid flat and not stretched, measured across and doubled.

Before you start

- Join the foundation chain into a ring with a slip stitch, and take care that it is not twisted.
- Each round is joined with a slip stitch in its first stitch. The chain at the start of a round does not count as a stitch; work the first stitch of the round into the stitch the round before was joined in.
- A V stitch is two double crochet (UK treble) with a chain of 2 between them, all in one place. In the rounds where the V stitches go into the spaces of the V stitches below, the start is different: the first V goes into the first space to the left of the joining (to the right if you are left handed), that is, into the first V of the round before.
- Measure round your jar at its widest. The small is for a jar 8¾ in (22 cm) to 9¾ in (25 cm) round. The medium is for a jar 10½ in (26.5 cm) to 11½ in (29 cm) round. The lace is stretched a little so that it holds. For a jar between these or larger, begin with 3 more chains than the size below for every ¾ in (2 cm) more: every 3 chains give 3 more stitches in the plain rounds and one more V stitch in the others.

Instructions

Chosen: Medium. Square brackets [ ] hold a repeat: work what is inside as many times as it says. Round brackets ( ) inside a line hold stitches that all go into one place. The count in round brackets at the end of a line is what that line leaves. Tick the box when a round is done. In UK terms sl st is slip stitch, sc is double crochet, dc is treble and sk is miss.

☐ **Foundation**	Ch 39, sl st in first ch to form a ring.
