Lacy shell afghan

US terms

Finished size
About 48¾ × 58¼ in (124 × 148 cm)

Skill
Intermediate
A ten-row lace of chain arches, fans and picots

Yarn
Medium (4)

Hook
5.5 mm (US I-9)

Gauge
13 stitches to 4 in (10 cm)
In single crochet (UK double crochet).

What you need

Yarn: any one color (ivory in the picture), medium (4) **about 2,170 yd (1,984 m), an estimate**
By weight: about 1,100 g, an estimate, where 100 g is 200 yd (183 m).

Hook: 5.5 mm (US I-9), or the size that gives you the gauge. Also: a yarn needle, scissors and a tape measure.

To find how many balls: divide by the length on your yarn's label and round up. Buy them from one dye lot. The estimate is from the stitches of this size at this gauge, with 30 percent added.

Gauge

13 stitches to 4 in (10 cm) in single crochet.

Ten rows of the lace are about 4 3/8 in (11.3 cm) tall. Check it on the afghan itself when row 12 is done, laid flat and smoothed out with the palm: from the middle of one fan to the middle of the next is about 3¾ in (9.4 cm), and rows 3 to 12, from the sc of row 2 to the sc of row 12 straight above it, are about 4 3/8 in (11.3 cm) tall. If they measure more, start again with a smaller hook; if they measure less, with a larger one. Work a piece a little more than 4 in (10 cm) square, lay it flat and count. If you count more stitches than this, use a larger hook; if fewer, a smaller one.

Notes

- The afghan is worked in one piece from the lower edge up, and the hem around it afterward. Row 1 is a right side row, and so is every odd row. Ten rows come again and again, rows 3 to 12.
- A fan takes three rows. First 8 dc in one ch-5 sp, an arch. Then one dc in each of these 8 dc, with ch 1 between them: 7 ch-1 spaces. Then one sc in each dc, and (sc, picot) in each ch-1 sp: 15 sc and 7 picots. A picot is not worked into; let it stand. The dip between two fans has one sc in each of the last two of these rows, the first of them in the ch-3 sp, the second in that sc.

For your own crochet, gifts and handmade pieces you sell. Do not resell or share this PDF or copies of it.

- The first row of arches over the fans: a tr in the sc of every dip, and two sc in every fan, in the 5th and in the 11th of its 15 sc, with ch 5 between all of them. The second row: a sc in every ch-5 sp, with ch 5 between them. The fans of the next set go into the arches that stand over the dips, so that every set is moved by half.
- How the rows begin. Ch 1 does not count as a stitch: the first sc goes into the first st. Ch 3 counts as a dc, ch 4 as a dc and a ch-1 sp, ch 5 as a dc and a ch-2 sp, ch 9 as a tr and a ch-5 sp: such a turning chain stands over the first st of the row below, and nothing more is worked into that st.
- How the rows end. "dc in top of turning ch" and "sc in top of turning ch" go into the third ch of a turning ch of 3, 4 or 5 and into the fourth ch of a turning ch of 9. "dc in last st" and "tr in last st" go into the sc at the edge.
- Half fans at the edges (rows 8 to 10): first 4 dc, of which the ch 3 is one, in the ch-2 sp at the edge, or 3 dc in that space and a dc in the top of the turning ch; then one dc on each of the 4 with ch 1 between, 3 ch-1 spaces; then 7 sc and 3 picots. In row 11 the sc goes into the third of these 7 sc, counted from the edge.
- "sk next st" and "sk next ch-2 sp": they are passed over, and nothing goes into them. In row 4 and in row 9 the sc and the chain spaces between the fan and the dip are passed over. Where brackets stand inside brackets, work what is in the outer ones in the order in which it stands. When you come to the inner ones, work these as often as the number after them says, then go on with what follows them in the outer ones. All of that together is one time of the outer ones. Stitches in parentheses are all worked into the one place named after them.
- The hem is worked in the round with the right side facing; do not turn. The ch 1 at the start of a round does not count as a stitch, and neither does the joining sl st. Round 1 works 3 sc into each of the four corners, 1 sc into each other st of the last row and each foundation ch between the corners, and along the sides 2 sc into the end of a row with a tr or a dc at that edge, and 1 into the end of a row with a sc there. On the foundation edge the first ch is the one under the last sc of row 1 and the last ch the one under its first sc.
- In round 2 the first sc goes into the st of the joining sl st, which is the first of the 3 sc of a corner, and the 3 sc of each corner go into the middle one of the three. In round 3 the 9 tr of each corner go into the middle one of its 3 sc. Rounds 4 and 5 are worked on the scallops of round 3: every sc between two scallops goes into the sc between them.
- To join a yarn with a sl st, make a slip knot of it on the hook, put the hook in the place named, yo, and pull through the place and the loop on the hook.
- Leave a tail of about 6 in (15 cm) whenever the yarn is begun or fastened off, and weave it in on the wrong side.
- When a ball runs out, work the last yarn over of a stitch with the next ball, and leave a tail of about 6 in (15 cm) on both.
- Buy whole balls from one dye lot.

Finishing

- Weave in the ends with the yarn needle.
- Lay the afghan on a towel, damp it a little, smooth it out flat so that the fans and the arches open, pull the picots of the hem outward, and let it dry.

In all: 4 ends to weave in.
