RS	right side
MR	magic ring

Special stitches

FPdc (front post double crochet): Yarn over, insert the hook from front to back and to the front again around the post of the stitch named, and finish as a double crochet. The post stands out toward you. It leaves 1 front post double crochet for the next row.

BPdc (back post double crochet): Yarn over, insert the hook from back to front and to the back again around the post of the stitch named, and finish as a double crochet. The post stands away from you. It leaves 1 back post double crochet for the next row.

Gauge

13 stitches and 10 rounds to 4 in (10 cm) in half double crochet.

The gauge is measured on the hat itself, at the two places the rounds name: across the crown, which checks the height of the rounds, and round the outside of the hat with a soft tape, along the round just worked, which checks the stitches and so the size round. If the hat measures more round than its round says, begin again with a smaller hook; if less, with a larger one. If it is right round and the crown measures more than it says, your rounds are taller than the gauge and the hat will come out deeper than stated; if the crown measures less, it will come out shallower. The depths below are worked out from the rounds: to 4 in (10 cm) go 10 rounds of half double crochet or 7 rounds of double crochet or 7 rounds of post stitches. Post stitches often come out a little shorter than that, and then the hat is a little shallower than stated.

The pattern also stops you to measure after round 7.

Check your gauge on the piece. Begin the pattern and measure the piece itself as you go. After round 11, put a soft tape round the outside of the hat along that round, without pulling it in: the hat should measure about 18½ in (47 cm) round.

Before you start

- Measure the head if you can: put a soft tape round its widest part, across the middle of the forehead and just above the ears, and choose the size whose head measurement is nearest. Each size is made about 1 in (2.5 cm) smaller round than the head it is for, as nearly as whole repeats of its stitches allow, so that it stays on.
- The pattern is written in United States terms, the directions of the special stitches too; the United Kingdom term stands beside each stitch in the list of abbreviations.
- The hat begins with a magic ring: wrap the yarn once round two fingers, leaving a tail of 6 in (15 cm), and with the hook draw a loop of the working yarn up through the ring. Keep that loop on the hook and make the chain that round 1 begins with; where round 1 names no chain, make 1 chain to hold the loop, and do not count it. Work the stitches of round 1 into the ring, over the tail too, then pull the tail until the ring is closed.

- The right side of the hat faces you in every round; the rounds are never turned.
- A joined round begins with a chain that does not count as a stitch and ends with a slip stitch in its first stitch. Unless the line says otherwise, the first stitch of the next round goes into the same place as that slip stitch.
- A post stitch goes around the post of the stitch straight below it in the round before, whatever kind of stitch that is; the line says whether it is a front post or a back post stitch.
- The horn and the ears are begun with a magic ring like the hat and worked in a spiral: no chain at the start of a round and no slip stitch at its end; put a marker in the first stitch of each round and move it up every round. The right side faces you.
- The number at the end of each line is the number of stitches it has when it is finished; chains and slip stitches that are not named there are not counted.
- Whip stitch: hold the two edges together and sew them over and over, the needle always going in from the same side, through one stitch of each edge at a time.
- Child: for a head of 19½ in (50 cm). The finished hat is about 18½ in (47 cm) round and about 7¼ in (18 cm) deep.

Instructions

Chosen: Child, head 19½ in (50 cm). Square brackets [ ] hold a repeat: work what is inside as many times as it says. The count in round brackets at the end of a line is what that line leaves. Tick the box when a round is done. In UK terms sl st is slip stitch, sc is double crochet, hdc is half treble and dc is treble.

Assembly

1. Pull the ring at the start of the hat closed once more and weave its tail through the stitches of round 1 on the inside.

2. Pull the ring at the tip of the horn closed once more and run its tail down inside the horn. Stuff the horn firmly. Winding: cut a strand of its yarn 30 in (75 cm) long and thread it in the needle. Sew its first end twice through the stitches at the tip and run that end down inside the horn. Wind the strand round the horn in a spiral of about 5 turns from the tip to the base, pulling it in a little, then sew it twice through the last round and run what is left inside the horn. The horn stands at the middle of the front, which is opposite the line where the rounds of the hat are joined. Counting rounds from the center of the top down the front, put the edge of the horn that is nearest the top just below round 4, so that 4 rounds are free between the horn and the center of the top, and sew its open edge to the hat all round.

3. Before an ear is closed, pull the ring at its tip tight once more and weave in its ends on the inside of the ear, all but the long sewing tail. Then flatten each ear and close it across the open edge with whip stitch.

4. Lay the hat flat with the line where its rounds are joined at the middle of the back, the center of the top at the middle of the upper fold: the fold on each side is then the side of the hat. Pin the ears along the line that runs from side to side over the center of the top, one on each side of the center of the top, their inner ends about 1¼ in (3 cm) apart, each with one of its flat faces to the front (an ear is double and both its faces are its right side, so either may be the front), and sew both sides of the closed edge of each ear to the hat, along its front and then along its back, so that it stands up.

5. Mane: it lies along a straight line from the horn over the center of the top and down the middle of the back, along the line where the rounds are joined, to the last round above the brim. Cut 36 strands of each mane yarn, each 7 in (18 cm) long. For one knot fold 3 strands of one yarn in half, pull the fold under the top of a stitch with the hook, put the ends through the fold and pull the knot tight. Make 2 knots in every round that the line crosses, in the two stitches on either side of the line: in rounds 4 to 1, on the front of the crown, then in rounds 1 to 14, behind the center. That is 36 knots; take the yarns in turn, a knot of each. Trim the ends level.

6. Eyes: with yarn F embroider two closed eyes on the front in back stitch. The middle of the front is opposite the line where the rounds of the hat are joined; fold the hat in half there to find it. Each eye is a shallow curve like a smile, 5 stitches of the hat wide, and begins 4 stitches to one side of the middle of the front, so that 8 stitches lie between the two eyes: both ends of the curve lie on round 12 and its lowest point, half way along it, lies on round 13. Add 3 lashes to the half of each curve that is farther from the middle: straight stitches about ¼ in (0.5 cm) long, from the curve outward and down. Back stitch: with the needle threaded and fastened on the inside, come up one stitch length to the left of the right-hand end of the line and go down at that end; then each time come up one stitch length farther to the left than the place where the needle last came up, and go down in the place where it last came up, so that the stitches touch.

Finishing

- Weave in every end on the inside of the hat.

In all: 4 pieces; 18 ends to weave in.
