Border

Hold the piece with the right side facing you and the last row at the top; the first st is the one at the right-hand corner.

☐ **Start**	With C, work around the edge of the piece, right side facing: the 94 sts of the last row, the ends of the 106 rows, the 94 chs of the foundation, the ends of the 106 rows.
☐ **Round 1**	Join C with sl st in first st, ch 1, 3 sc in first st, sc in next 92 sts, 3 sc in next st, sc in end of each of next 106 rows, 3 sc in next ch, sc in next 92 chs, 3 sc in next ch, sc in end of each of next 106 rows; join with sl st in first sc (408 sc)
☐ **Round 2**	With B, ch 1, sc in same st as join, 3 sc in next st, sc in next 94 sts, 3 sc in next st, sc in next 108 sts, 3 sc in next st, sc in next 94 sts, 3 sc in next st, sc in next 107 sts; join with sl st in first sc (416 sc)
☐	Fasten off.

Putting it together

Weave in the ends on the wrong side. The two tails of a bobbin hang at the side of its block, away from the stitches of its color: take each with the yarn needle back into the block, through the inside of the stitches of the row it hangs from, along the yarns carried there, for about 2 in (5 cm), so that it does not show on the right side. Weave every other end into stitches of its own color.

Finishing

- Dampen the blanket, lay it flat, pull the edges straight and let it dry.

In all: 10,788 stitches (9,964 in the panel, 824 in the border); 6 ends to weave in.

To find how many balls: divide by the length on your yarn's label and round up. Buy them from one dye lot. The estimate is from the stitches of this size at this gauge, with 15 percent added.

Notes

- Each square of the chart is one single crochet. Row 1 is the bottom row of the chart and a right side row. The odd rows are right side rows and read the chart from right to left; the even rows are wrong side rows and read it from left to right. Every row is also written out in words, in the order you work it.
- The ch 1 at the start of a row or a round does not count as a stitch: the first stitch of a row goes into the first st, the one the turning chain rises from, and the last into the last st.
- To change color inside a row, work the last stitch of the old color until its last yarn over, and make that yarn over with the new color.
- The blocks: rows 1 and 2 and the last two rows, 105 and 106, are all A, and so are the 2 stitches at each edge. Between them stand three rows of blocks, each 34 rows tall: rows 3 to 36, rows 37 to 70 and rows 71 to 104. A block is 30 stitches wide. In the first and the third row of blocks the ground is A, D, A from edge to edge; in the second it is D, A, D. A block on A has a heart in B with a dark edge in E and a light patch in D; a block on D has a heart in C with a dark edge in B and a light patch in A.
- The ground: every block has a ball of its ground color to itself. A block on A at the edge takes the 2 edge stitches with it; beside a block on D the 2 edge stitches have a small ball of A of their own. One ball of A goes all the way up the right-hand edge: it works rows 1 and 2, the right-hand block of rows 3 to 36, the 2 right-hand edge stitches of rows 37 to 70, the right-hand block of rows 71 to 104, and rows 105 and 106. Every other ground ball, with those of A at the left-hand edge, is a new one in rows 3, 37 and 71: join it there with the last yarn over before its first stitch, and cut it after the last row of its blocks, row 36, 70 or 104.
- The heart: its heart color, its dark edge and its light patch have a bobbin each. Join a bobbin at the first stitch of the block in the first row named for it: let its tail hang on the wrong side and work over the yarn. From then on it goes from the first to the last of the 30 stitches of the block in every row: lay the yarns of the block that are not in use along the top of the row below and work over them. Counted from the first row of the block, the heart color runs through its rows 8 to 29, the dark edge through its rows 6 to 25 and the light patch through its rows 22 to 25. The ground color of the block is carried in the same way inside the stitches of the heart. No yarn goes from one block into the next.
- Where two blocks meet, and in rows 37 to 70 where the 2 edge stitches meet a block, work the last yarn over of the last stitch on one side with the ground yarn of the other side, and bring the new yarn up from under the old one on the wrong side, so that the two cross and no slit is left. The yarns of the first side wait there, on the wrong side, until the next row comes back to them.
- When a bobbin has done the last row named for it, cut it at the last stitch of the block, leaving a tail of about 6 in (15 cm) on the wrong side.
- Do not pull a carried yarn tight: before every change of color spread the stitches just worked out flat, so that the row stays as wide as the one below.

- The border is worked in rounds with the right side facing; do not turn between rounds. Round 1 goes along the last row, down the ends of the rows, along the other side of the foundation chain and up the ends of the rows, with 1 sc in the end of every row. The 3 sc in one place turn a corner.
- After a join the first stitch of the next round goes into the stitch that was joined. The joining sl st is not a stitch and is not worked into.
- Foundation edge: the chain skipped at the start of row 1 is not counted. Each chain below a stitch of row 1 is one ch of the border.
- To change yarn between rounds, make the joining sl st with the new yarn: put the hook in the first stitch, take the new yarn over the hook and pull it through. Cut the old yarn, leaving a tail of about 6 in (15 cm), and leave a tail of the same length on the new yarn.
- To join a yarn with a sl st, make a slip knot of it on the hook, put the hook in the place named, yo, and pull through the place and the loop on the hook.
- When a ball runs out, work the last yarn over of a stitch with the new ball, and leave a tail of about 6 in (15 cm) on both.
- Leave a tail of about 6 in (15 cm) when you begin, when you join a yarn and when you fasten off, unless another length is given.
- The rows of the graph are written as their runs of color, in the order you work them: "7 A, 1 B, 7 A" is 7 sc with A, then 1 sc with B, then 7 sc with A. Row 1 is worked into the chain: sc in the 2nd chain from the hook and in each chain across. Every later row begins ch 1, turn (the ch 1 does not count as a stitch), and works 1 sc in each stitch.
- Buy whole balls from one dye lot.
