Gauge
10 stitches and 5½ rows to 4 in (10 cm)
In striped mesh.

You will need

Yarn A: red, main	**about 300 yd (274 m), an estimate**
Yarn B: navy, contrast	**about 250 yd (229 m), an estimate**
Yarn C: pine green, contrast	**about 250 yd (229 m), an estimate**
Yarn D: cream, contrast	**about 120 yd (110 m), an estimate**

Hook: 8 mm (US L-11), or the size that gives you the gauge. Also: yarn needle, scissors and tape measure.

To find how many balls: divide by the length on your yarn's label and round up. Buy them from one dye lot. The estimate is from the stitches and chains of this size at this gauge, with 30 percent added. The estimates count the tails, the woven chains and the fringe too. To measure your own: work the swatch and measure it, pull the swatch out and measure all the yarn it took; divide by the area of the swatch and multiply by the area of the piece. That is the yarn of the mesh for all the colors together: divide it among them by the rows each one has. Then add what the mesh has not: for each color the tails, the woven chains and the fringe. The tails are 12 in (30 cm) for each stripe. For the chains, work one, pull it out, measure its yarn with both tails, and multiply by the number of chains of that color. For the fringe, every chain needs 4 strands of its color, which is 56 in (142 cm). Last, add a tenth to every yarn, so that you do not run short.

Abbreviations

Written in US terms. Where the UK name differs it is given beside the US one.

ch	chain stitch
dc	double crochet (UK tr, treble)
RS	right side
sk	skip (UK miss)
sp	space
st	stitch

Gauge

10 stitches and 5½ rows to 4 in (10 cm) in striped mesh. Along a row, count every stitch and every chain between stitches as one.

Use any hook that gives you this. If you count more stitches than this in 4 in (10 cm), change to a larger hook; if you count fewer, to a smaller one.

The pattern also stops you to measure after row 4.

The swatch. A test piece to measure and pull out. It is not the start of the pattern. The test piece is about 6 in (15 cm) wide and 6½ in (17 cm) tall, so that you can count over 4 in (10 cm) in the middle of it.

Swatch foundation	With A, ch 18.	
Swatch row 1 (RS)	Dc in 6th ch from hook (skipped chs count as dc and ch-1 sp), **[**ch 1, sk next ch, dc in next ch**] 6 times**	**(8 dc, 7 ch-1 sps)**
Swatch rows 2 to 9	Ch 4 (counts as dc and ch-1 sp), turn; sk next ch-1 sp, **[**dc in next st, ch 1, sk next ch-1 sp**] 6 times**, dc in 3rd ch of turning ch	**(8 dc, 7 ch-1 sps)**

From the left edge the plaid has 4 columns of squares in A, then repeats of 14 columns, each of which ends with 4 columns in A again (the standard size is 4 + 14 + 14 = 32 columns). For another width, add or take away 28 chains at the start: that is one repeat, 14 squares and 14 woven chains. For another length, add or take away 14 rows at a time, which is about 10 in (25.5 cm), and make every woven chain 27 ch longer or shorter for each 14 rows. Measure your own gauge first.

Before you start

- The ch 4 at the start of a row counts as a dc and a ch-1 sp. It stands on the first st of the row below; the next st is the second. The last dc of the next row is worked into the 3rd of those 4 chains. In row 2 the last dc goes into the 2nd ch from the hook end of the 5 skipped chs: the one nearest the hook is the space, the next 3 are the dc, the last is left unworked.
- Row 1 is the right side.
- Change yarn in the last yarn over of the last stitch of the row before.
- Cut a yarn when its stripe is done, leaving a tail of about 6 in (15 cm), and work over the tails as you go or weave them in at the end. The estimates include the tails.
- The gauge, the width you stop to measure and the size are all those of the mesh before any chain is woven in, as it lies flat. The chains are woven in without a pull, so that the mesh keeps its size.
- Leave a tail of about 6 in (15 cm) when you begin, and weave it in at the end with the others. Join a new ball at the end of a row, with the same tails: each join adds two ends.

- Of the 88 rows, A has 28, B 24, C 24 and D 12.
- The size is without the fringe. For the weaving make 32 chains: 12 of A, 8 of B, 8 of C and 4 of D.

Instructions

Chosen: Standard. Square brackets [ ] hold a repeat: work what is inside as many times as it says. The count in round brackets at the end of a line is what that line leaves. Tick the box when a row is done. In UK terms dc is treble.

Yarns in order of use: A, red; B, navy; C, pine green; D, cream.

A box for each row, 86 to 88: tick them off as you go.

86 87 88

☐ **End** Fasten off, leaving a 6 in (15 cm) tail.

Assembly

1. Chains for weaving: make 32 chains, 12 with A, 8 with B, 8 with C and 4 with D. For each, leave a tail of 7 in (18 cm), ch 170, cut the yarn 7 in (18 cm) from the hook and pull the end through. A chain is about 68 in (173 cm) long, a little longer than the scarf, because it goes over and under.

2. Order of the colors: lay the scarf flat, right side up, with the foundation edge toward you. Each column of squares takes one chain. From the left edge to the right the columns are 4 A, then [2 B, 2 C, 2 D, 2 C, 2 B, 4 A] 2 times.

3. To weave: thread the tail of a chain in a yarn needle. In the first column go up from behind through the square of row 1, down through the square of row 2, up through the square of row 3, and so on to the last row, always in the same column. In the next column begin the other way: down from the front through the square of row 1, up through the square of row 2. Go on in turn, so that beside every place where a chain lies on top its neighbors lie underneath. After each chain draw the mesh flat until the chain lies without a pull, with the same length of tail at both ends. The tails go into the fringe and are not woven in.

Finishing

- Fringe: for every column of squares at both short ends cut two strands of the color of its chain, 14 in (36 cm) long. Hold the two together, fold them in half, pull the fold through the square of the edge with the hook and pull the ends through the fold. Take the tail of the chain together with these four ends and tie all five in one knot close to the edge, so that the chain is held. Trim the ends to about 5½ in (14 cm).
- Weave in the ends.
- Lay the piece flat, pull it gently to its size, dampen it and let it dry.

In all: 88 rows; 2,904 stitches; 74 ends to weave in.
