You will need

Yarn: charcoal tweed, medium (4) **about 550 yd (503 m), an estimate**

Hook: 5.5 mm (US I-9). Also: yarn needle, scissors and tape measure.

To find how many balls: divide by the length on your yarn's label and round up. The estimate is from the stitches and chains of this size at this gauge, with 30 percent added. To measure your own: work the swatch and measure it, mark the yarn where the swatch begins and ends, pull the swatch out and measure the yarn it took; divide by the area of the swatch and multiply by the area of the piece.

Gauge

15 stitches and 8½ rows to 4 in (10 cm) in post stitch rib.

To count your gauge in the middle of the test piece: let it lie flat and do not pull the ribs apart.

The pattern also stops you to measure after row 6.

The swatch. A test piece to measure and pull out. It is not the start of the pattern. The test piece is about 6½ in (17 cm) wide and 6 in (15 cm) tall, so that you can count over 4 in (10 cm) in the middle of it.

Swatch foundation	Ch 26.	
Swatch row 1 (RS)	Dc in 4th ch from hook (skipped chs count as dc) and in each ch across	**(24 dc)**
Swatch rows 2 to 13	Ch 3 (counts as dc), turn; **[**FPdc around next st, BPdc around next st**] 11 times**, dc in top of turning ch	**(2 dc, 11 FPdc, 11 BPdc)**

For another width, add or take away 2 chains at a time: each 2 chains adds one more repeat of the bracketed group, and 2 more stitches to a row that has no brackets. Measure your own gauge first.

Before you start

- The ch 3 at the start of a row counts as a dc. It stands on the first st of the row below; the next st is the second. The last stitch of the next row is worked into the top of it. In row 2 that is the top of the skipped chs: the last ch you made of the foundation.
- To work an FPdc: yo, insert the hook from front to back to front around the post (the upright part) of the st, yo, pull up a loop, [yo, pull through 2 loops] 2 times. The front is the side that faces you as you work.
- To work a BPdc: the same, but insert the hook from back to front to back around the post of the st.
- Row 1 is the right side.
- The number of rows is our estimate: yours may differ, and the length does not change the stitch count.
- Leave a tail of about 6 in (15 cm) when you begin, and weave it in at the end with the others. Join a new ball at the end of a row, with the same tails: each join adds two ends.

Instructions

Chosen: Standard. Square brackets [ ] hold a repeat: work what is inside as many times as it says. The count in round brackets at the end of a line is what that line leaves. Tick the box when a row is done. In UK terms dc is treble, FPdc is front post treble and BPdc is back post treble.

☐ **Foundation**	Ch 28.	
☐ **Row 1 (RS)**	Dc in 4th ch from hook (skipped chs count as dc) and in each ch across	**(26 dc)**
☐ **Rows 2 to 136**	Ch 3 (counts as dc), turn; **[**FPdc around next st, BPdc around next st**] 12 times**, dc in top of turning ch *Repeat until the piece measures about 64 in (163 cm): at our gauge that is row 136. Go by the tape measure, not the count.*	**(2 dc, 12 FPdc, 12 BPdc)**

A box for each row, 2 to 136: tick them off as you go. The heavy box is where you stop and measure.

Stop and measure when you have worked row 6. Width, across the middle of the rows and not along the chain edge: about 7 in (18 cm). If it is wider, start again with a smaller hook; if it is narrower, with a larger one. If only the chain edge is tight, make the chain with a larger hook.

☐ **End**	Fasten off, leaving a 6 in (15 cm) tail.	

Finishing

- Weave in the ends.
- Lay the piece flat, pull it gently to its size, dampen it and let it dry.

In all: 136 rows; 3,536 stitches; 2 ends to weave in.
