Gauge

13 stitches and 12 rows to 4 in (10 cm) in the whole sampler, all its bands together. Along a row, count every stitch and every chain between stitches as one.

Use any hook that gives you this. If you count more stitches than this in 4 in (10 cm), change to a larger hook; if you count fewer, to a smaller one.

To count your gauge in the middle of the test piece: 12 stitches side by side in a row of sc are about 3¾ in (9.5 cm) wide. The rows are of different heights: over the whole blanket they average 12 rows to 4 in (10 cm), rounded to the nearest half row. The test piece has only the first few bands, so do not count its rows over 4 in (10 cm): its row gauge is right when all its 18 rows together are about 5¾ in (14.5 cm) tall.

The pattern also stops you to measure after row 9.

The swatch. A test piece to measure and pull out. It is not the start of the pattern. The test piece is about 7¾ in (20 cm) wide and 5¾ in (14.5 cm) tall from edge to edge, all its rows together. Count the stitches over 4 in (10 cm) in the middle of a row.

For another width, add or take away 12 chains at a time. Each 12 chains adds to the bracketed group 2 repeats in a row of shells, 3 in a row of bobbles or popcorns, 4 in a row of V-stitch or blanket stitch and in the charcoal row worked into the last row of V-stitch, 6 in all the remaining rows that have brackets, and 12 stitches to a row that has none. Measure your own gauge first. The border is worked into whatever the edge has: count your own stitches and row ends for its first round.

Instructions

Throw. US terms.

sc single crochet (UK dc), **ch** chain, **dc** double crochet (UK tr), **sl st** slip stitch, **hdc** half double crochet (UK htr), **sk** skip, **BPdc** dc round the stitch below, hook in and out at the back, **st** stitch.

5 dc in next st: **all five in that one stitch**. Dc in next 3 sts: one in each. **ch-1 sp**: the hole under the chain. The hook goes in the hole, never into a chain.

The ch 1 is not a stitch. Work in the **very first stitch**.

[ ] 77 times: 77 times in all. ( ) in one place: all of it there. (3 dc, 77 Xdc): the row now has that many; a check, not a step. **How to read a pattern**

Also: sp space, yo yarn over.

Every stitch, drawn: flossfield.com/crochet/stitches.

Special stitches

Xdc (crossed pair): Skip the next st, dc in the st after it, then, working in front of that dc, dc in the skipped st. It leaves 2 dc for the next row or round.

puff (puff stitch): [yo, insert hook in the st, yo, pull up a loop to the height of an hdc] 4 times in the same place, yo, pull through all 9 loops on hook.

long spike sc (long spike single crochet): Count from the row you are working: the next st is in the row below it, and the hook goes one row lower, into the top of the st straight below the next st, which is 2 rows below the row you are working; yo, pull up a loop to the height of the row you are working, yo, pull through 2 loops; the next st, which lies behind the spike, is left unworked.

bo (bobble): [yo, insert hook in the st, yo, pull up a loop, yo, pull through 2 loops] 5 times in the same place, yo, pull through all 6 loops on hook.

CL (cluster): [yo, insert hook in the st, yo, pull up a loop, yo, pull through 2 loops] 3 times in the same place, yo, pull through all 4 loops on hook.

pc (popcorn): 5 dc in the st, take the hook out of the loop, insert it from front to back in the top of the first of the 5 dc, catch the loop and pull it through.

☐	Fasten off, leaving a 6 in (15 cm) tail.

Finishing

- Weave in the ends.
- Lay the piece flat, pull it gently to its size, dampen it and let it dry.

In all: 88 ends to weave in.

To find how many balls: divide by the length on your yarn's label and round up. Buy them from one dye lot. The estimate is from the stitches and chains of this size at this gauge, with 30 percent added. The swatch cannot tell the yarn of the whole blanket, since every stitch pattern takes its own amount. To know what your own hand takes, weigh a scrap before and after a band.

Notes

- The ch 3 at the start of a row counts as a dc. It stands on the first st of the row below; the next st is the second. The last stitch of the next row is worked into the top of it.
- The ch 4 at the start of a row counts as a dc and a ch-1 sp. It stands on the first st of the row below; the next st is the second. The last stitch of the next row, a dc or an sc, is worked into the 3rd of those 4 chains.
- The ch 1 at the start of a row does not count as a stitch: the first stitch of the row goes into the first st of the row below.
- To work a BPdc: yo, insert the hook from back to front to back around the post of the st, yo, pull up a loop, [yo, pull through 2 loops] 2 times. The front is the side that faces you as you work.
- Row 1 is the right side.
- A stitch worked into a chain space passes over any stitches that lie before the space; they are left unworked.
- Stitches in parentheses, or several of one stitch, are all worked into the one place named after them.
- The same st, after a turning chain, is the stitch the chain stands on.
- Bobbles are worked on the wrong side, so that they stand out on the right side.
- Change yarn in the last yarn over of the last stitch of the row before.

- A yarn that rests for 4 rows or fewer is carried: so A, which rests only while the two rows of a band are worked, waits at the edge and goes loosely up it to its next row. A yarn that rests longer is cut when the last row before the rest is done: so every scrap color is joined where its band begins and cut when its two rows are done, leaving a tail of about 6 in (15 cm). Work over the tails as you go or weave them in at the end. Fasten A off after the last row and join it anew for the border.
- Ridges: the BPdc of the second row, worked on the wrong side, stand out on the right side.
- A BPdc takes the place of the stitch it goes around: leave the top of that stitch unworked. It lies in front of the BPdc as you work.
- A long spike reaches over the last row of charcoal into the row of charcoal before it, straight below the next stitch: in row 11 the next st is a st of row 10, and the spike goes into the top of a st of row 9. In every other band of long spikes it is the same: into the first of the two rows of charcoal just below the band.
- In UK terms a crossed pair is a crossed pair of trebles.
- Leave a tail of about 6 in (15 cm) when you begin, and weave it in at the end with the others. Join a new ball at the end of a row, with the same tails: each join adds two ends.
- The border is worked in rounds with the right side facing. Round 1 begins in the st just joined, which it calls "first st", goes along the last row to the other end, which it calls "last st", then down the left side, along the foundation edge and up the right side.
- Along the foundation edge the ch skipped at the start of row 1 is not counted: the last ch is the one under the first stitch of row 1.
- The chain at the start of a round does not count as a stitch. After round 1, the first stitch of a round goes into the stitch that the slip stitch joined: that stitch is the first of the next stitches.
- In UK terms long spike sc is long spike double crochet.
- Buy whole balls from one dye lot.
- What one band takes, estimated like the amounts above and with the same 30 percent: up to 25 yd (23 m) for moss stitch; up to 30 yd (27 m) for mesh; up to 35 yd (32 m) for puff stitches, long spikes, V-stitch, clusters; up to 40 yd (37 m) for crossed pairs, bobbles, blanket stitch; up to 45 yd (41 m) for shells; up to 50 yd (46 m) for ridges; up to 60 yd (55 m) for popcorns. Any scrap that long will do for one of the 42 bands: weigh or measure it, and choose the next stitch pattern by what you have. The 42 bands begin at row 3, two rows each, and each has its own two rows of A after it; the twelve stitch patterns come over and over in the order of rows 3 to 50, and the thirteen scrap colors over and over in the order B to P (there is no yarn I and no yarn O).
- Along the sides of the border one rate serves for all the rows. Bands of low rows and bands of tall rows lie close together: beside no band is the edge of sc more than about 2 sts ahead of the height of the rows or behind it, and a few bands on it is level again.
