You will need

Yarn A: ruby, contrast	**about 90 yd (82 m), an estimate**
Yarn B: amber, contrast	**about 85 yd (78 m), an estimate**
Yarn C: sapphire, contrast	**about 85 yd (78 m), an estimate**
Yarn D: emerald, contrast	**about 85 yd (78 m), an estimate**
Yarn E: black, main	**about 225 yd (206 m), an estimate**

Hook: 5.5 mm (US I-9), or the size that gives you the gauge. Also: yarn needle, scissors and tape measure.

To find how many balls: divide by the length on your yarn's label and round up. Buy them from one dye lot. The estimate is from the stitches and chains of this size at this gauge, with 30 percent added. The estimates count the yarn that is worked over and the lead lines too. To measure your own: work the swatch and measure it, pull the swatch out and measure all the yarn it took; divide by the area of the swatch and multiply by the area of the piece. That is the yarn for all the colors together, without the lead lines: the notes under Before you start say how much of it each color has, and how much E to add for the lead lines, which the swatch has not. Last, add a tenth to every yarn, so that you do not run short.

Gauge

13 stitches and 9 rows to 4 in (10 cm) in stained glass stitch. Along a row, count every stitch and every chain between stitches as one.

Use any hook that gives you this. If you count more stitches than this in 4 in (10 cm), change to a larger hook; if you count fewer, to a smaller one.

To count your gauge in the middle of the test piece: there are no chains between the stitches here, so count the stitches alone: 12 stitches side by side are about 3.7 in (9.4 cm) wide, and 9 rows are about 4 in (10 cm) tall.

The pattern also stops you to measure after row 7.

The swatch. A test piece to measure and pull out. It is not the start of the pattern. The test piece is about 7½ in (19 cm) wide and 6¼ in (16 cm) tall, so that you can count over 4 in (10 cm) in the middle of it.

For another width, add or take away 12 chains at a time: each 12 chains is two more panes across, and two more lead lines. Measure your own gauge first.

Before you start

- The ch 3 at the start of a row counts as a dc. It stands on the first st of the row below; the next st is the second. The last stitch of the next row is worked into the top of it. In row 2 that is the top of the skipped chs: the last ch you made of the foundation.
- The ch 1 at the start of a row does not count as a stitch: the first stitch of the row goes into the first st of the row below.
- Row 1 is the right side.
- Change yarn in the last yarn over of the last stitch before the new color, also at the end of a row when the next row begins with another yarn. A row that names no yarn at its start begins with the yarn that the row before it ended with.
- A pane is two rows tall, and those two rows are worked with the same two yarns. The first of the two rows (rows 1, 4, 7, 10 and so on) begins with one yarn. If the other one waits at this edge, work over it from the first stitch on; if it is new, bring it in where it is first named. While you work a pane with one yarn, lay the other one along the top of the row below and work over it, so that it is where the next pane needs it. After the last stitch of the last pane but one, leave the yarn of that pane hanging there: it is not carried over the last pane.
- In the second of the two rows (rows 2, 5, 8, 11 and so on) the first pane is worked with one yarn alone; at its end draw up the yarn that hangs there. From there carry the yarn that rests as before, and carry it over the last pane too, all the way to the end of the row, so that both yarns are at that edge. The rows of E are worked with nothing carried inside.
- Do not cut a yarn that rests: it waits at the edge where its next row begins and is carried loosely up that edge, over 4 rows at most. The border covers it. Cut each yarn when its last row is done, leaving a tail of about 6 in (15 cm).
- Several of one stitch named together ("3 sc in first st") are all worked into that one place.
- Leave a tail of about 6 in (15 cm) when you begin, and weave it in at the end with the others. Join a new ball at the end of a row, with the same tails: each join adds two ends.
- The border is worked in rounds with the right side facing. Rnd 1 begins in the st just joined, which it calls "first st", goes along the last row to the other end, which it calls "last st", then down the left side, along the foundation edge and up the right side.
- Along the foundation edge every ch counts, skipped or not; the last one is the lowest of the 3 chs that stand as the first dc of row 1.
- The chain at the start of a round does not count as a stitch. After rnd 1, the first stitch of a round goes into the stitch that the slip stitch joined: that stitch is the first of the next stitches.
- If you measure your own yarn: of the yarn for the scarf and its border about 33 parts in 100 are E and about 17 parts in 100 each are A, B, C and D. The lead lines take about 25 yd (23 m) of E more.

Instructions

Chosen: Standard. Square brackets [ ] hold a repeat: work what is inside as many times as it says. The count in round brackets at the end of a line is what that line leaves. Tick the box when a row is done. In UK terms sl st is slip stitch, sc is double crochet and dc is treble.

Assembly

1. Lead lines: with the right side facing, work three upright lines of slip stitch with yarn E, one over each of the three places where two panes meet side by side, between the 6th stitch and the 7th, between the 12th and the 13th, and so on. They take three 295 in (749 cm) lengths of yarn E, one for each line, and the yarn is held behind the scarf all the way.

2. To work a line: insert the hook from front to back in the gap between the two panes, at the foot of row 1, and pull up a loop of E, leaving a 6 in (15 cm) tail behind. For each slip stitch, insert the hook from front to back at the next place up the gap, and pull a loop of E through to the front and through the loop on the hook. The places are these: in a row of double crochet, one halfway up the row and one at its top, where the next row begins; in a row of E, one at its top, between the two single crochets that stand on the two panes. A line ends at the top of row 143, against the border, and has 239 slip stitches. Cut the yarn, leaving a 6 in (15 cm) tail, draw the end out through the last loop, and take it down to the wrong side just beyond that loop. Work loosely, so that the line does not draw the scarf in.

Finishing

- Weave in the ends.
- Lay the piece flat, pull it gently to its size, dampen it and let it dry.

In all: 4,408 stitches (3,432 in the scarf, 976 in the border).
