Wolf hood with a scarf

Child, head 19½ in (50 cm) · US terms

Finished size

About 19¾ in (50 cm) round and about 10½ in (27 cm) deep; it is measured round above the face opening, and from the center of the top down the middle of the back to the neck. Each scarf end is about 4½ in (11 cm) wide and hangs about 17½ in (44 cm) below the neck, and its pocket is about 4¾ in (12 cm) deep

To fit a head of 19½ in (50 cm)

In half double crochet (UK half treble).

What you need

Yarn A: heathered wolf gray, the hood, the scarf ends, the ears and the eyelids	**about 325 yd (297 m), an estimate**
Yarn B: snow white, the ruff, the cheek tufts, the muzzle, the inner ears and the paw pockets	**about 165 yd (151 m), an estimate**
Yarn C: black, the nose, the mouth, the eyes, the paw pads and the toes	**about 25 yd (23 m), an estimate**
Yarn D: golden amber, the outer round of the eyes	**about 5 yd (5 m), an estimate**

By weight: about 260 g in all, an estimate, where 100 g is 200 yd (183 m).

Hook: 5.5 mm (US I-9), or the size that gives you the gauge. Also: a soft tape measure, a stitch marker, a yarn needle, scissors, 4 more stitch markers (for the scarf ends), pins and a little toy stuffing for the muzzle.

To find how many balls: divide by the length on your yarn's label and round up. Buy them from one dye lot. The estimate is from the stitches and chains of this size at this gauge, with 30 percent added.

Gauge

13 stitches and 10 rounds to 4 in (10 cm) in half double crochet.

The gauge is measured on the hood itself, at the two places the rounds name: across the crown, which checks the height of the rounds, and round the outside of the hood with a soft tape, along the round just worked, which checks the stitches and so the size round. If the hood measures more round than its round says, begin again with a smaller hook; if less, with a larger one. If it is right round and the crown measures more than it says, your rounds are taller than the gauge and the hood will come out deeper than stated; if the crown measures less, it will come out shallower.

Check your gauge on the piece. Begin the pattern and measure the piece itself as you go. After round 11, put a soft tape round the outside of the hood along that round, without pulling it in: the hood should measure about 19¾ in (50 cm) round.

The pattern also stops you to measure after round 8.

Notes

- Measure the head if you can: put a soft tape round its widest part, across the middle of the forehead and just above the ears, and choose the size whose head measurement is nearest. The hood is made as large round as the head or larger, by no more than about 1¾ in (4.5 cm), so that it goes on easily.
- The hood begins with a magic ring: wrap the yarn once round two fingers, leaving a tail of 6 in (15 cm), and with the hook draw a loop of the working yarn up through the ring. Keep that loop on the hook and make the chain that round 1 begins with; where round 1 names no chain, make 1 chain to hold the loop, and do not count it. Work the stitches of round 1 into the ring, over the tail too, then pull the tail until the ring is closed.
- The muzzle, the eyes, the paw pads and the toes are begun with a magic ring like the hood and worked in a spiral: no chain at the start of a round and no slip stitch at its end; put a marker in the first stitch of each round and move it up every round. The right side faces you.
- Where a piece worked in a spiral changes yarn at the start of a round, make the last yarn over of the last stitch of the round before with the new yarn; then cut the old yarn, leaving a tail of 6 in (15 cm).
- The number at the end of each line is the number of stitches it has when it is finished; chains and slip stitches that are not named there are not counted.
- Whip stitch: hold the two edges together and sew them over and over, the needle always going in from the same side, through one stitch of each edge at a time.
- The ruff and the cheek tufts and the scarf ends and the ears and the inner ears and the nose and the eyelids are worked in rows: the chain at the start of a row does not count as a stitch, and the first stitch after the turn goes into the last stitch of the row before.
- Rounds: the right side of the hood faces you in every round; the rounds are never turned. A round begins with a chain that does not count as a stitch and ends with a slip stitch in its first stitch; the first stitch of the next round goes into the same place as that slip stitch.
- Rows: the first row of the hood is worked on from the last round in the same way, its first stitch in the same place as the slip stitch and the right side facing. Every later row begins with a chain, which does not count as a stitch, and a turn. After the turn the first stitch goes into the last stitch of the row before.

For your own crochet, gifts and handmade pieces you sell. Do not resell or share this PDF or copies of it.

- A scarf end changes to yarn B at the start of one row, the line that says "With B". Make the last yarn over of the last stitch of the row before with yarn B, and cut yarn A, leaving a tail of 6 in (15 cm).
- The ends of a scarf can catch: for a child tuck them into the coat, and take the hood off for play, for sleep and in a car seat.

Assembly

1. Pull the ring at the start of the hood closed once more and weave its tail through the stitches of round 1 on the inside.

2. Face edge, in yarn A, worked once along the face opening. Hold the hood upright, the crown at the top and the right side of the front toward you. Join yarn A with a slip stitch in the end of row 26, the last row, at the front edge on your left, ch 1, and beginning in the same place work up that edge [1 single crochet in the end of each of the next 2 rows, 2 single crochet in the end of the next row] 4 times (16 sc); 1 single crochet in each of the 20 stitches that row

For your own crochet, gifts and handmade pieces you sell. Do not resell or share this PDF or copies of it.

15 left unworked (20 sc); down the edge on your right [2 single crochet in the end of the next row, 1 single crochet in the end of each of the next 2 rows] 4 times (16 sc): 52 single crochet in all. Fasten off. Measured inside this edge, which takes about ¼ in (0.5 cm) from each side and from the top, the face opening is about 5¾ in (15 cm) wide at the top and about 4½ in (11 cm) high.

3. Ruff: lay the strip on the outside of the hood, round the face opening, its right side up and its beginning chain along the foot of the face edge, so that the single crochet of the face edge stand free inside it as a narrow rim; the two ends of the strip come to the two lower ends of the face edge, and the stitches increased in row 3 to the two upper corners. Pin it, one chain beside the foot of one single crochet of the face edge, 52 in all. With a strand of yarn B 50 in (127 cm) long whip stitch the chain to the hood from end to end, through one chain and the foot of one single crochet at a time. With a second strand of yarn B 45 in (114 cm) long sew the outer edge of the strip, its last row, down on the hood with one small stitch through every second single crochet, without drawing it tight. Cheek tufts: three stand on each cheek, at the outer edge of the ruff, their right side up and their points turned away from the face. Weave in the tail at the point of each on its wrong side. Hold a tuft with its beginning chain against the last row of the strip, row 4, which has 58 stitches, and with its beginning tail whip stitch the chain to that row, one chain to one single crochet, going through the hood under it too. Beginning at one end of the row, the first tuft takes stitches 1 to 5, the second stitches 6 to 10 and the third stitches 11 to 15; the other three take the same stitches counted from the other end of the row, so that the 28 stitches between them, above the face, stay free. Sew only this edge of a tuft and leave its point free, so that it stands off like fur.

4. Ear edge, in yarn A: first weave in the ends of the four ear pieces on their wrong sides, the sides that faced you in row 2. Lay two of them on each other with their wrong sides together, point on point and beginning chain on beginning chain, the beginning chains at the bottom, and work through the edges of both at once. Join yarn A with a slip stitch in the lower right-hand corner, in the ends of row 1 of both pieces, ch 1, and beginning in the same place work 1 single crochet in the end of each of the 10 rows up to the point, 1 more single crochet in the end of row 10 at the point, and 1 single crochet in the end of each of the 10 rows down the other side: 21 single crochet. Fasten off, leaving a tail of 20 in (51 cm) for sewing the ear on. Make the second ear in the same way.

5. Inner ears: weave in the tail of the beginning chain of each on its wrong side. Lay an inner ear on one face of each ear, its right side up, its beginning chain level with the beginning chains of the ear and the same number of stitches of the ear free on each side of it. With its long tail whip stitch it down all round, through that face of the ear only. That face is the front of the ear.

6. The middle of the front lies above the middle of the 20 stitches left unworked in row 15, between the 10th and the 11th of them. Mark with pins the straight line that runs from there up to the center of the top; every place of the face and the ears is counted from that line.

7. Placing the ears: on each side of the line leave 3 stitches of round 6 free and pin the beginning chains of an ear over the next 8 stitches of that round, the inner ear to the front and the point up. Sew first the front edge of the ear and then its back edge to round 6, so that the ear stands upright.

8. Muzzle: pull its ring tight and weave in the tail of the ring on its wrong side; its right side, the side that faced you, is outside. Nose: weave in its beginning tail on its wrong side. Lay it on the right side of the muzzle, its beginning chain along the line between round 4 and round 5 and its narrow end at the center of the muzzle, and with its tail whip stitch it down all round. The side where the nose lies is the upper side of the muzzle. Mouth: with a strand of yarn C 25 in (64 cm) long work in back stitch, from the narrow end of the nose, a straight line of 2 stitches down to the line between round 3 and round 4, which it meets opposite the middle of the nose; then, from the lower end of this line, 3 stitches to the left and 3 stitches to the right along the line between round 3 and round 4, each as long as one stitch of round 3 is wide: the two ends turn up in a smile. Back stitch: thread the needle and fasten the yarn on the wrong side, behind the place where the line begins. First stitch: come up one stitch length along the line from its beginning and go down at the beginning. Every stitch after it: come up one stitch length farther along the line than the end of the stitch just worked, and go down in the hole at that end, so that the stitches touch.

9. Sewing on the muzzle: pin it to the front, the nose toward the crown, its center on round 12 and on the line of pins,

so that its lower part lies on the ruff. With its tail whip stitch it down all round, one stitch of its last round at a time, 24 in all, through the ruff where it lies on the ruff and through the hood everywhere; before the last third is closed, fill it lightly with stuffing, so that it stands out about ¾ in (2 cm). Eyes: pull the rings of the eyes tight and weave in their short tails on the wrong side. Pin the eyes with their centers on round 9, one on each side of the line of pins, each center 5 stitches of that round from the line, so that the two centers are 10 stitches of the hood apart, and with its own tail whip stitch each eye down all round, one stitch of its last round at a time. Eyelids: weave in the tail of the ring on the wrong side. Think of each eye as the face of a clock, 12 toward the crown. Lay an eyelid on each eye, its right side up and its straight edge down. The straight edge is about as long as the whole eye is wide: lay it level across the upper part of the eye, along the line through two places on the outer edge of the eye, the one halfway between 10 and 11 and the one halfway between 1 and 2, with its middle straight below 12. Its two ends reach past these places onto the hood, by the same length on both sides, and its round edge lies on the hood above the eye. With its long tail whip stitch the eyelid down all round, through the eye where it lies on the eye and through the hood everywhere. Then with two strands of yarn B held together work one French knot on the black center of each eye, in its upper half. French knot: bring the needle up from the inside, wrap the yarn 2 times round it close to the cloth, hold the wraps snug and go down again one thread away from where it came up.

10. Paws, sewn on before the pockets are folded up. They lie on rows 45 to 56 of each scarf end, on its wrong side, the side that faced away from you in row 1: when the pocket is folded up, that side is outside. The pad lies nearest to row 45, which is beside the fold, and the toes above it, toward row 56, the open edge of the pocket, so that each paw print stands upright when the scarf end hangs down. Before a piece is sewn down pull its ring tight and weave in the tail of the ring on its wrong side; its right side, the side that faced you, is up. Pin the paw pad with its center on row 48, over stitch 8 of the 15, which is the middle stitch. Pin the four toes in an arch above it: the two inner toes with their centers on row 52, over stitch 6 and stitch 10, and the two outer toes with their centers on row 50, over stitch 4 and stitch 12. With its own long tail whip stitch each piece down all round, one stitch of its last round at a time, 18 for a pad and 8 for a toe.

11. Pockets: the pocket of each scarf end is its last 12 rows, rows 45 to 56. Fold them up onto the right side of the scarf end, along the line between row 44 and row 45, so that the last row, row 56, lies on row 33 and the two narrow rows beside the fold round the lower corners. The right side is the one that faced you in row 1. Whip stitch each side of the pocket to the side of the scarf end that lies under it, the end of one row to the end of one row, 12 on each side, from the fold up to the last row: one side with the long tail at the end of the last row, sewn from the top of the pocket down to the fold, the other side with a strand of yarn B 20 in (51 cm) long. Sew twice into the same place at the top of each side. The last row is the open edge, and a hand goes in from above.

Finishing

- Weave in every end on the inside of the hood.
- Scarf ends: weave in the yarn ends of the rows before the fold along their rows, on the side that faced away from you in row 1, which is the back of the scarf end. Inside the pocket, through its open edge, weave in the yarn ends of all the rows after the fold and the ends of the yarn that sewed the pocket and the paw.

In all: 30 pieces; 3,859 stitches.
