Dark segments of the abdomen and front of the thorax

## Stitches

- **Satin stitch**, 2 strands  
Marks near the wing tips, dark segments of the abdomen, pale segments of the abdomen, front of the thorax, back of the thorax, right eye, left eye
- **Stem stitch**, 2 or 3 strands  
Fore wings, hind wings
- **Back stitch**, 2 strands  
Fore wing veins, hind wing veins

## Three ways to transfer the pattern

- 1. Fabric you can see through**  
Tape page 2 to a sunny window or lay it on a light box, tape the fabric over it and trace the lines with a sharp pencil or a water-soluble pen.
- 2. Fabric you cannot see through**  
Lay dressmaker's carbon paper colored side down on the fabric with page 2 on top, tape the layers and trace the lines firmly with a ballpoint pen.
- 3. Iron-on**  
Go over the lines of page 3, the mirrored page, with an iron-on transfer pen, lay it ink side down on the fabric and press with a dry iron.

Pages 2 and 3 are the pattern at actual size. Print them at 100% with scaling turned off.

## Dragonfly with veined wings

**6 inch hoop**

Print at 100% (actual size). Do not scale or fit to page. Check the square below with a ruler before you trace.

**1 in**

25.4 mm

Check square: 1 inch (25.4 mm) on each side.  
If it measures anything else, print again at 100% with scaling off.

## Dragonfly with veined wings

**6 inch hoop**

Mirrored. Trace this page with an iron-on transfer pen or pencil, then press it ink side down on the fabric.

**1 in**

25.4 mm

Check square: 1 inch (25.4 mm) on each side.

If it measures anything else, print again at 100% with scaling off.
