Two ways onto denim

1. **A wash-away sheet, the sure way**
   Print page 3 on a sticky wash-away sheet, smooth it onto the denim, stitch through both and rinse it away.
2. **White or yellow carbon paper**
   Lay it colored side down on the fabric with page 3 on top, tape the layers and trace firmly with a ballpoint pen. Go over a faint line with a white pencil.

Page 3 is the pattern at actual size (page 4 is its mirror, for an iron-on pen on a light fabric). Print it at 100% with scaling turned off. Then put the fabric in the hoop: inner ring under, drawing up, tight as a drum.

What you need

Easy. A 6 inch (15 cm) hoop, and a 9 inch (23 cm) square of plain cotton or linen, in denim blue. Embroidery needle: size 7 for 3 strands, size 3 for 4 to 6 (a lower number is a thicker needle). Skeins: one of each color is enough. An estimate for the 6 inch hoop, from the length of each line and the area of each filled shape, with a fifth added for tails.

How to read it

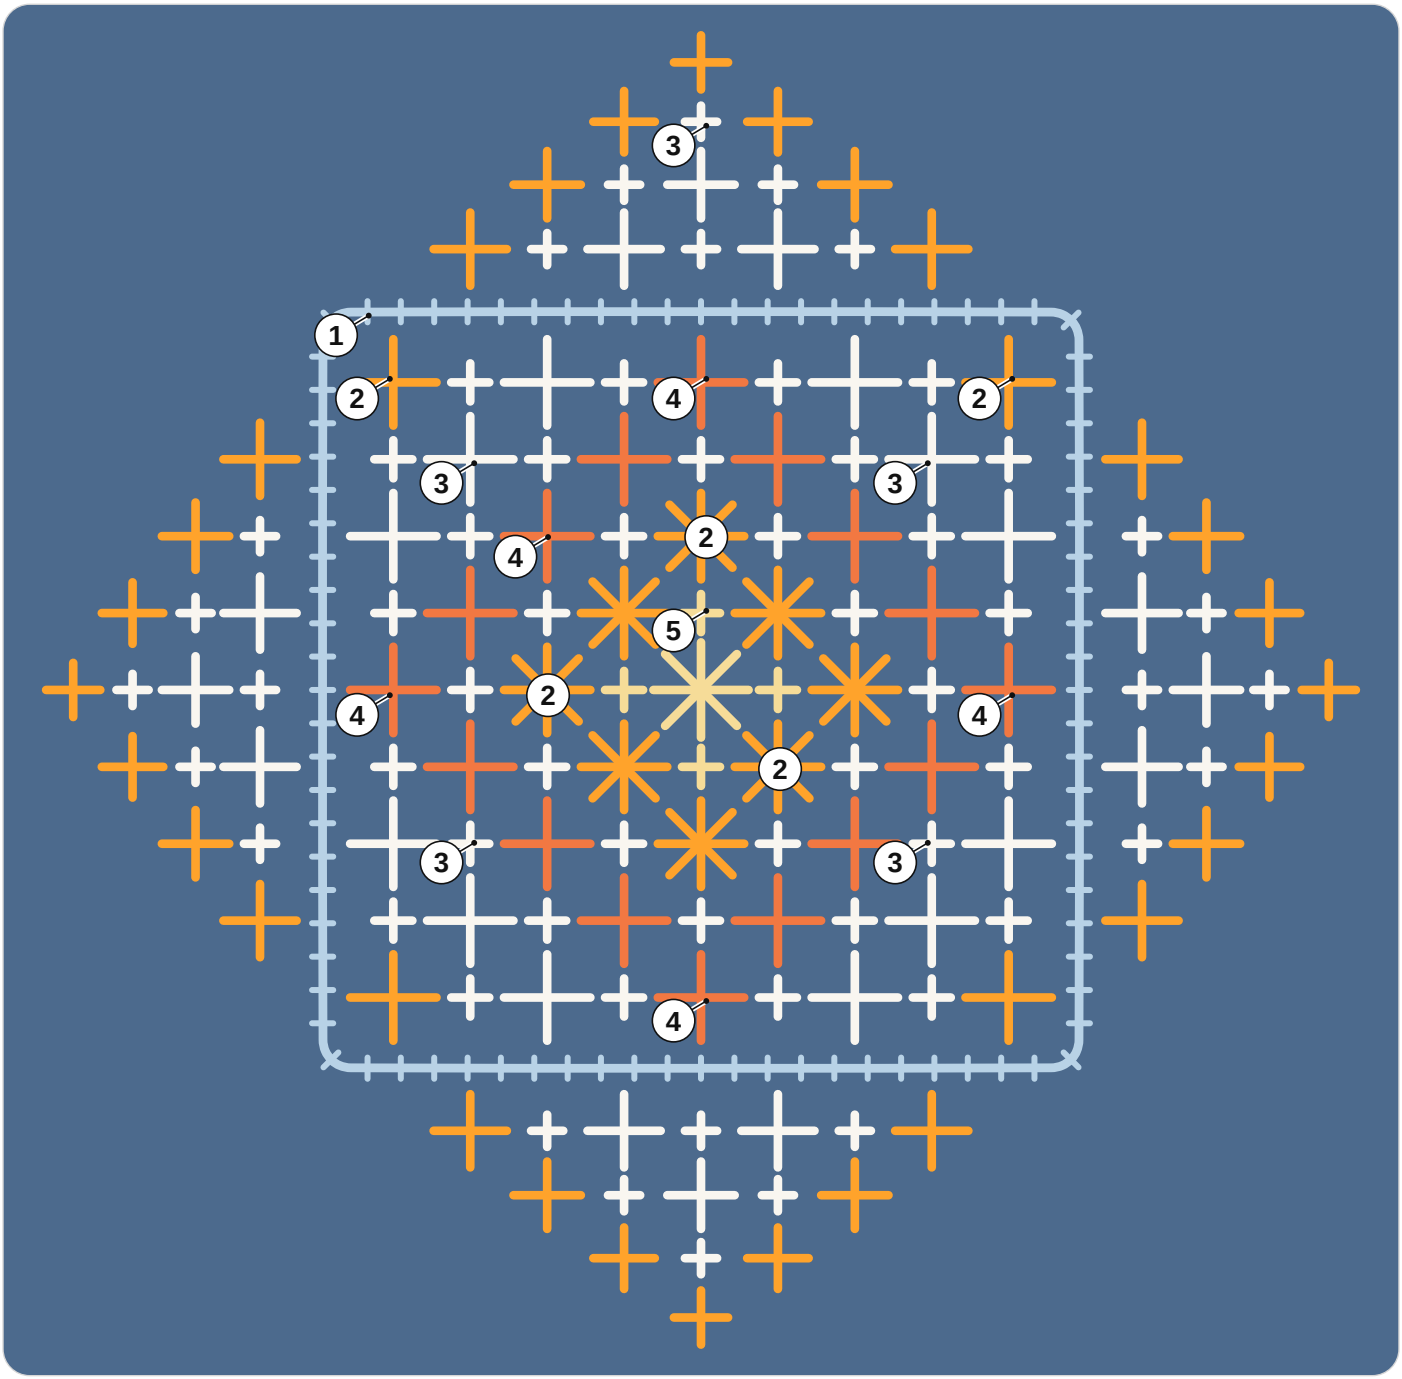

Floss is six strands. Cut 18 inches (45 cm), pull out the number given one at a time, and lay them together.

On denim start with a small firm knot inside, which the cloth hides. End each thread by running the needle under the backs of a few stitches.

A fine broken line inside a shape is where two shades meet: trace it, do not stitch it.

A number on the picture is a color of the list of floss on page 1. The fine lines on the colors show which way the stitches lie.
