Small ultrasound baby in white line

Sized for a 6 inch hoop (15 cm). The stitched design is about 4.4 × 3.3 in (11.2 × 8.4 cm).

Which color goes where: by number on page 2.
Fabric: charcoal cotton or linen.

Three ways onto dark fabric

1. **Light shines through it**
   Lay page 3 on a bright light box, tape the fabric over it and trace the lines with a white marking pencil or pen.
2. **No light shines through**
   Print page 3 on a sticky wash-away sheet, smooth it onto fabric that can be washed, stitch through both and rinse it away.
3. **White or yellow carbon paper**
   Lay it colored side down on the fabric with page 3 on top, tape the layers and trace firmly with a ballpoint pen. Go over a faint line with a white pencil.

Page 3 is the pattern at actual size (page 4 is its mirror, for an iron-on pen on a light fabric). Print it at 100% with scaling turned off. Then put the fabric in the hoop: inner ring under, drawing up, tight as a drum.

What you need

Easy. A 6 inch (15 cm) hoop, and a 9 inch (23 cm) square of plain cotton or linen, in charcoal. Embroidery needle: size 9 for 1 strand, size 7 for 2 or 3, size 5 for 4 (a lower number is a thicker needle). Skeins: one of each color is enough. An estimate for the 6 inch hoop, from the length of each line and the area of each filled shape, with a fifth added for tails.

How to read it

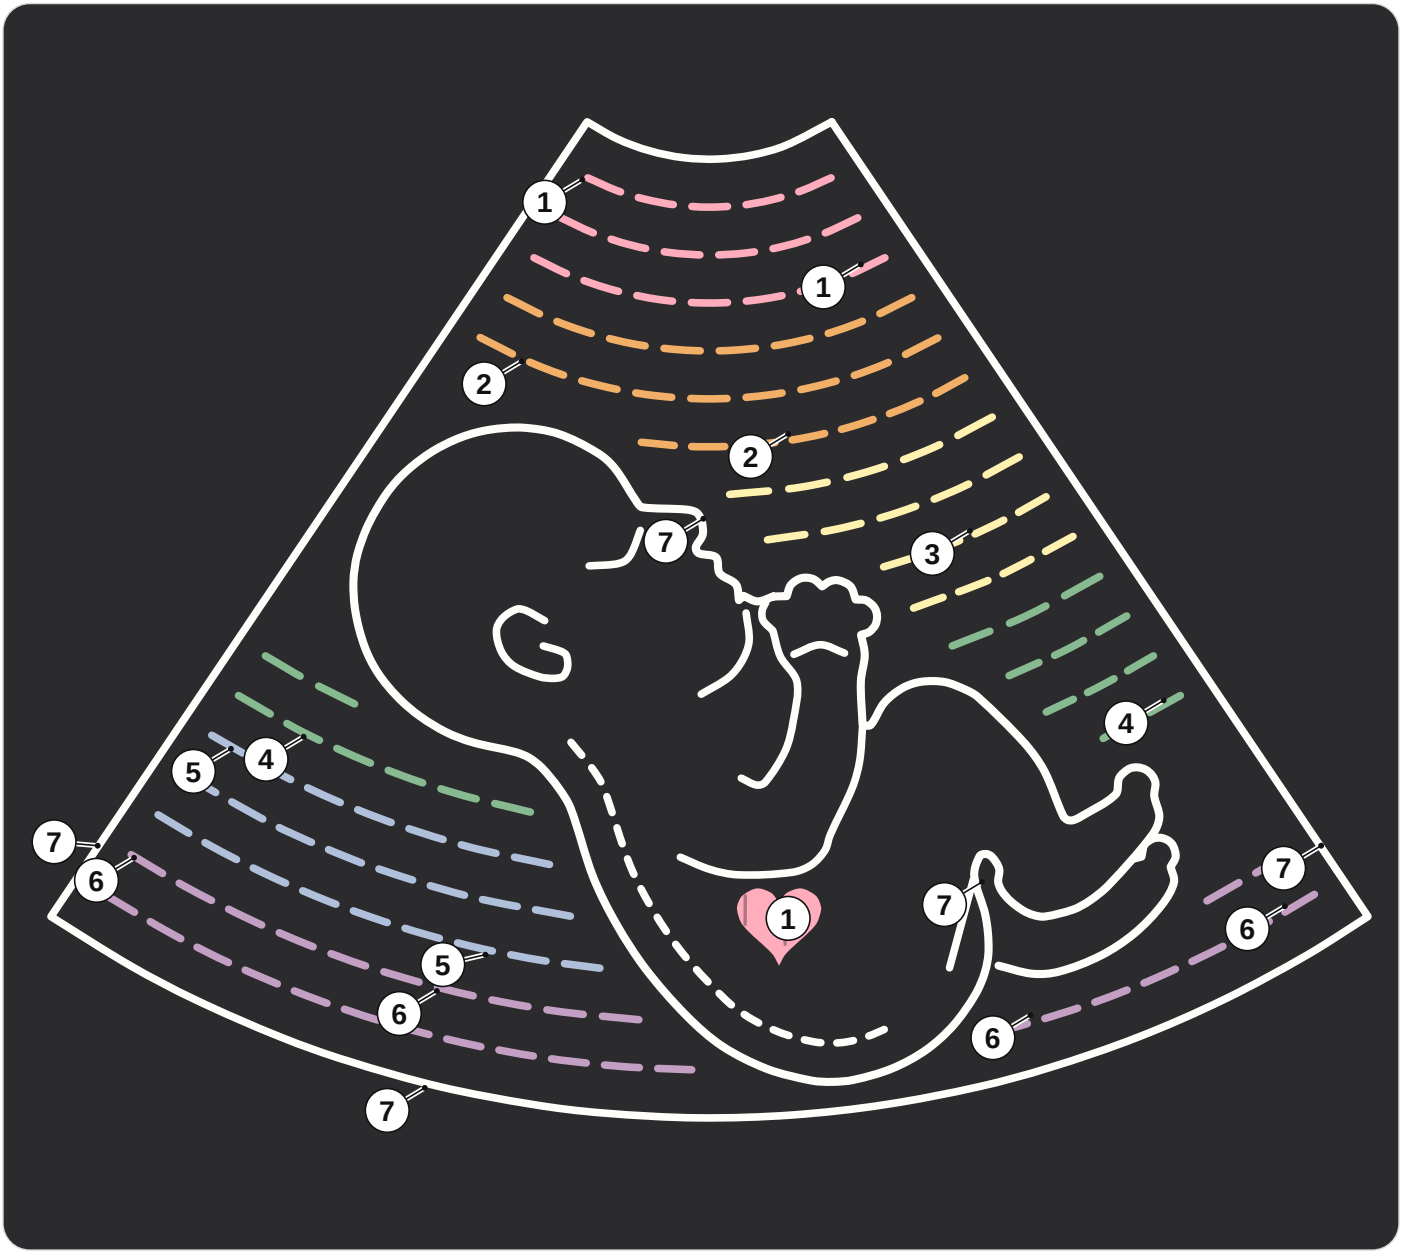

Floss is six strands. Cut 18 inches (45 cm), pull out the number given one at a time, and lay them together.

Inside a filled shape start with two or three tiny stitches, which the filling covers. Start a line with a small knot on the back. End each thread by running the needle under the backs of a few stitches.

A dashed line is running stitch.

A number on the picture is a color of the list of floss on page 1. The fine lines on the colors show which way the stitches lie.
