

# Toy rocket with a star

Sized for a 6 inch hoop (15 cm). The stitched design is about 2.9 × 4.4 in (7.4 × 11.2 cm).

Which color goes where.

## Floss

- DMC 304 Medium Red**  
Nose of the rocket, stripes of the rocket and fins
- DMC 3852 Very Dark Straw**  
Star and flame
- DMC 336 Navy Blue**  
Rim of the window, outline of the rocket and nozzle
- DMC 3755 Baby Blue**  
Pane of the window

## Stitches

- **Satin stitch**, 2 strands  
Nose of the rocket, stripes of the rocket, fins, star, pane of the window, nozzle, flame
- **Stem stitch**, 2 or 3 strands  
Rim of the window, outline of the rocket

In a 6 inch hoop the widest satin stitch shape is 1/2 in (13 mm) across. Satin stitches longer than about 12 mm (just under 1/2 in) tend to work loose: divide the shape into sections, or work it in long and short stitch.

## Three ways to transfer the pattern

- 1. Fabric you can see through**  
Tape page 2 to a sunny window or lay it on a light box, tape the fabric over it and trace the lines with a sharp pencil or a water-soluble pen.
- 2. Fabric you cannot see through**  
Lay dressmaker's carbon paper colored side down on the fabric with page 2 on top, tape the layers and trace the lines firmly with a ballpoint pen.
- 3. Iron-on**  
Go over the lines of page 3, the mirrored page, with an iron-on transfer pen, lay it ink side down on the fabric and press with a dry iron.

Pages 2 and 3 are the pattern at actual size. Print them at 100% with scaling turned off.

# Toy rocket with a star

**6 inch hoop**

Print at 100% (actual size). Do not scale or fit to page. Check the square below with a ruler before you trace.

Check square: 1 inch (25.4 mm) on each side.  
If it measures anything else, print again at 100% with scaling off.

# Toy rocket with a star

**6 inch hoop**

Mirrored. Trace this page with an iron-on transfer pen or pencil, then press it ink side down on the fabric.

**1 in**

25.4 mm

Check square: 1 inch (25.4 mm) on each side.  
If it measures anything else, print again at 100% with scaling off.
