Cross stitch ruler

Print at 100 percent (no scaling). In one inch of Aida the squares are the count; of linen, the threads.

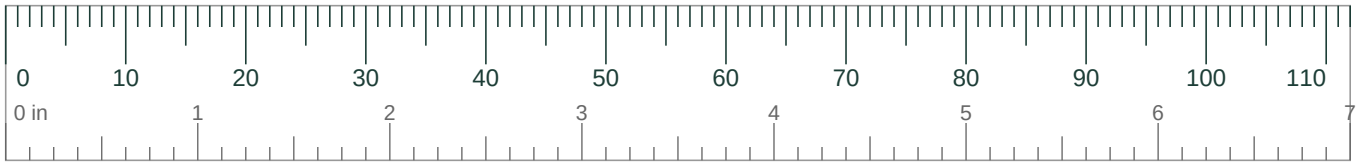

11-count Aida: 11 stitches to the inch

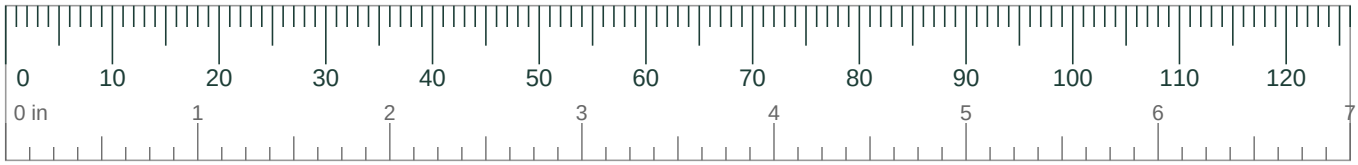

14-count Aida, or 28-count linen, over two: 14 stitches to the inch

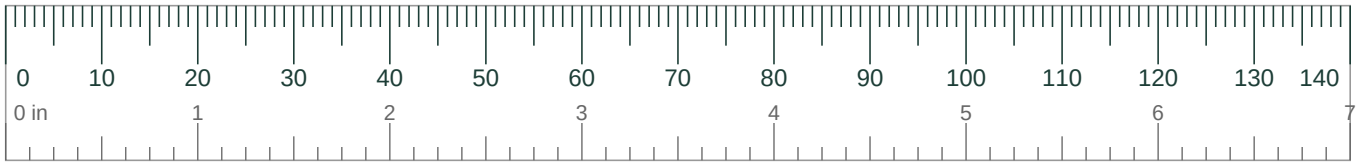

16-count Aida, or 32-count linen, over two: 16 stitches to the inch

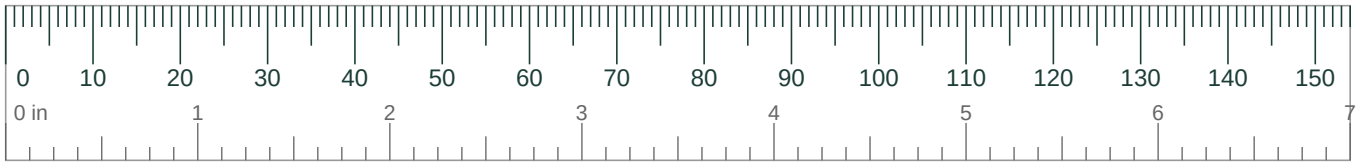

18-count Aida: 18 stitches to the inch

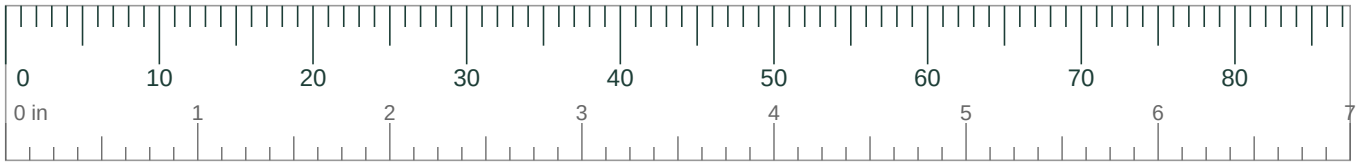

20-count Aida: 20 stitches to the inch

22-count Hardanger: 22 stitches to the inch

25-count linen, over two: 12 1/2 stitches to the inch

This line is 1 inch (2.54 cm) long when the sheet is printed at 100%.

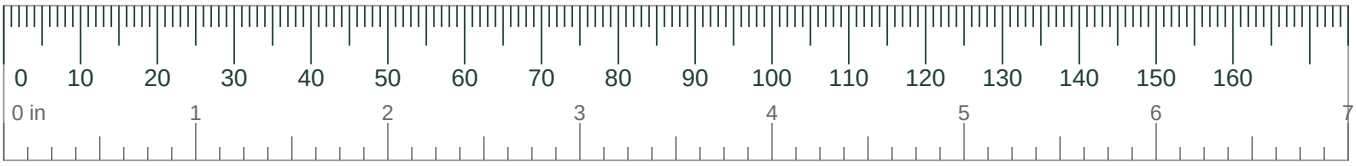

This line is 5 cm long when the sheet is printed at 100%.

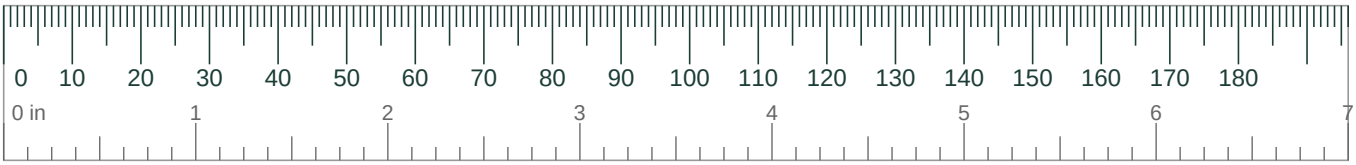

Linen and evenweave: every thread

The ruler whose ticks stand on the threads from end to end is your fabric’s count.

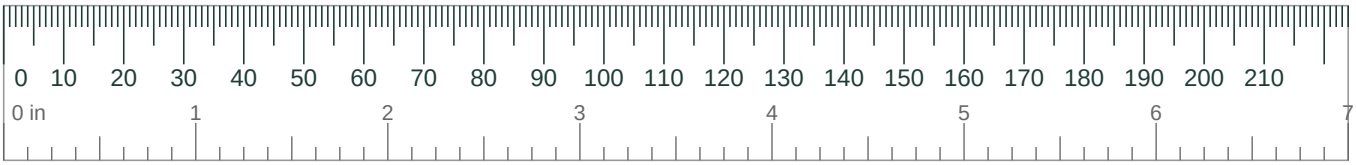

25-count linen, every thread: 25 threads to the inch

28-count linen, every thread: 28 threads to the inch

32-count linen, every thread: 32 threads to the inch

This line is 1 inch (2.54 cm) long when the sheet is printed at 100%.

This line is 5 cm long when the sheet is printed at 100%.
